

US-Ukraine Foundation Offers Online Paid Employment Listings

USUF now offers an exciting new opportunity for companies doing business in Ukraine to reach those difficult-to-find highly qualified, passive job candidates for their professional positions. Considering the increasing difficulty of finding qualified candidates for their professional jobs and the rapid expansion of Western companies doing business in Ukraine, the USUF Business-in-Ukraine web site offers a unique online venue to reach a growing pool of new candidates.

Starting April 1, 2007, USUF accepts paid employment listings for the Employment Listing Page on its Business-in-Ukraine (<http://www.businessinukraine.org>) web site. Companies/organizations can post a 30-day employment listing with a link from the Employment Page to their own Web site for **US\$99.95**. All employment classified listings must be paid by credit card only. **No exceptions**. Employment listings can be sent to advertise@usukraine.org. Payment can be made at www.usukraine.org/donate.shtml.

Companies/organizations can call special attention to their posting by making it a "**Featured Job**." A "featured job" is one of the jobs listed in the top five spots on this page. The cost for this is an additional **US\$59.95 for 30 days**. The Featured Jobs will also appear at least once in the USUF Bizlinks e-newsletter that gets sent out to over 4,000 subscribers each month. Visitors can subscribe to this free newsletter in the right-hand side top corner of this web page.

Companies/organizations can also have a one-page PDF "brochure" for \$49.95 per month. Job candidates can download this brochure from a link on the company's job posting. Since this is a PDF, both text and images are acceptable. Payment for this is also only by credit card.

After USUF publishes your ad, you will receive an e-mail notification.

Employment classified listings are text only. Job-post format should be of the similar size and layout that you see in the actual listings at:
www.businessinukraine.org/employment.htm .

Take advantage today of this great new opportunity on the USUF web site to find those difficult-to-find professional candidates for your expanding business in Ukraine!
